

# Fleece & Fibre Internship Opportunities

We would like to extend the offer of two fleece & fibre internships on our smallholding in the Summer of 2024. Each successful applicant will be able to observe shearing days, learn about hand processing - from creature right through to creation - and use some of our own homegrown fibre to create a personal project over four days in July/August.

All you need to do is tell us in no more than 400 words what interests you about learning hand-processing techniques and what you might like to attempt for your personal project.

Send completed applications to [director@atbirkhillhouse.co.uk](mailto:director@atbirkhillhouse.co.uk) no later than **Friday, 3<sup>rd</sup> May 2024**. Successful applicants will be notified on **Monday, 6<sup>th</sup> May 2024**.

For further information visit:

[www.atbirkhillhouse.co.uk/  
fleece-fibre-internships/](http://www.atbirkhillhouse.co.uk/fleece-fibre-internships/)

## What we offer:

- hands on experience in processing wool and alpaca fibre from fleece to yarn
- the opportunity to work on a personal project based around local fibre and/or natural dyeing techniques
- access to all fibre based workshops and our employees' expertise

## What we expect:

- engagement and willingness to learn
- help during shearing days and attended workshops
- a report documenting your project and your experience At Birkhill House, the format of which will be discussed and agreed individually with successful applicants
