

LEARNING HOW TO PROCESS WOOL FROM FLEECE TO FIBRE WASHING

Wool Processing ^{with soap*}

- Dunk in warm water + move gently.
- Keep temperature consistent.
- Pour out after soaking.
- Depending on dirt, dunk + soak again or rinse with warm water - no soap
- Can soak as full fleece or individual staples but full fleece usually more difficult to penetrate.

* Can use eco-ver.
* Can use waste water for plants.
